

Hellenic
Emerging
Technologies
Industry
Association

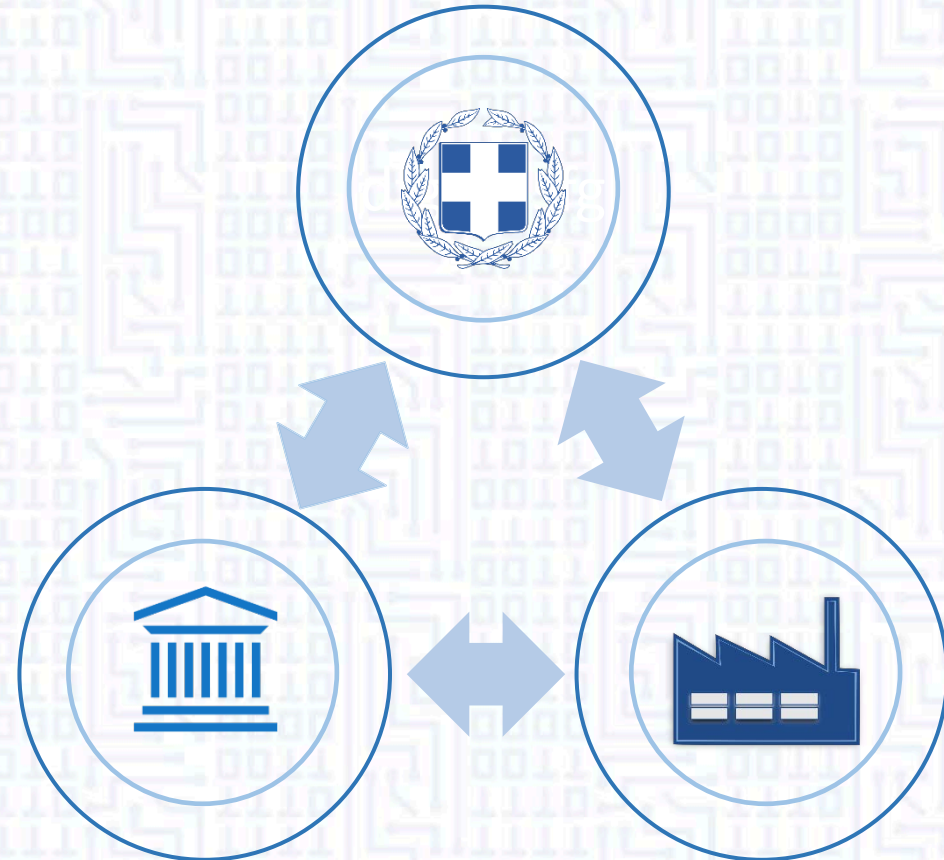

Profile

- **HETiA (former HSIA) is Greece's alliance of highly innovative industrial and academic performers, promoting digital technology proliferation and entrepreneurship in emerging technology domains (microelectronics, IoT,...)**

Mission

- HETiA represents the interests and growth needs of its industrial members by catalysing a triple helix in innovation (government-universities-industry)

Milestones

2005: Hellenic Semi-Conductor Industry Association establishment

2006: mi-cluster establishment in collaboration with Corallia

2007: Phase 1 Microelectronics (Budget:5M€, Participants:15)

2009: Phase 2 Microelectronics (Budget:35M€, Participants:>50)

2011: Synergies establishment with other high-tech associations

2012: Extroversion plan implementation

2017: Hellenic Emerging Technologies Industry Association establishment

2021: HETiA cluster establishment under the Innovation Cluster Initiative through the General Secretariat for Research & Innovation

Exhibitions / Business Delegations / Roadshows

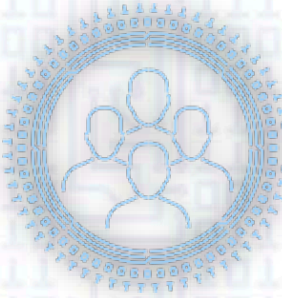

Networking / Synergies

Trainings / Workshops / Career Days

Funding / Projects (R/D)

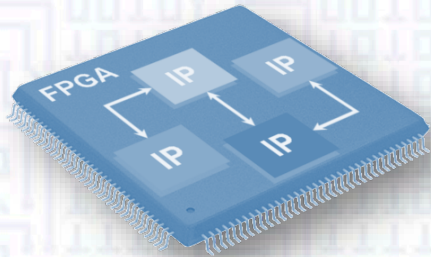

Members

Today, we bring together 50 industrial members and 30 universities and institutes, that employ more than 3000 persons and revenues more than 200M€.

Technological Areas
